ENGLISH VERSION

ARUS TOKEN

REAL UTILITY. REAL IMPACT. A CLEANER TOMORROW.

ARUS Token is an ecosystem utility token designed to enable access, participation, and digital services across the ARUS ecosystem — connecting real world clean energy with Web3 innovation.

*Clean Energy
Brighter
Tomorrow*

UTILITY OF ARUS TOKEN

MORE THAN A TOKEN
A UTILITY FOR REAL-WORLD IMPACT

1 Platform Access

Access to ARUS ecosystem: project dashboard, operational data, project updates and Web3 features.

2 Energy Data & IoT Utility

Use token to access verified energy data from our projects (e.g. kWh production, utilization rate, charging sessions, telemetry data).

3 EV Charging Utility

Use ARUS for payment or obtain benefits such as charging credits, membership, priority access, and loyalty programs.

4 Energy Service Credits

Redeem or use token to obtain service credits within the ARUS platform.

5 Membership & Tier Access

Hold or stake tokens to unlock membership levels with enhanced services and benefits.

6 Community Ecosystem

Use ARUS for event registrations, seminars, training, community programs, merchandise, and ecosystem activities.

7 Project Participation Access

Gain early access to project information, showcases, site visits, webinars, and community participation programs.

8 Governance Utility (Limited Scope)

Vote on community and platform matters, such as feature development, community programs, or ecosystem initiatives.

9 Partner Ecosystem Utility

Use ARUS across a growing network of partners — EV operators, energy services, technology partners, and other ecosystem projects.

10 Rewards & Loyalty

Earn ARUS rewards for eligible activities, such as platform usage and community contributions.

11 Staking for Utility Access

Stake tokens to unlock exclusive services, higher capacity, or special features.

12 Digital Identity & Verification

Your ARUS wallet serves as your member identity for whitelist, verification, event access, and other services.

13 Marketplace Utility (Upcoming)

Use ARUS in the future marketplace for digital services, charging credits, certificates, and approved products.

14 API / Enterprise Access

Businesses can use ARUS for API access, analytics, IoT data feeds, and enterprise services.

15 Burn / Consumption Mechanism

A portion of tokens used for certain services may be burned, as defined in the tokenomics and smart contract policy.
